SOURCE

1. The TOMASZOW MAZ (Q 52/P 31) airfield is located about 7 miles from the town (see Annex). The 4,000 x 3,300-foot landing field had a good grass cover. The road passing along the field was blocked by gates on the north and south. Two wooden cantonment buildings, each 120x40x10 feet, were being built by PWs in a woods east of the field. Fourteen fighters were parked at the eastern field border. Flying was done only with U-2 biplanes (Soviet pilots).

25X1A 2. Comment:

The existence of an airfield near TOMASZOW MAZ is known from a report of July 1947, according to which this field is located about 4 miles northeast of the town. No other information on the present occupation of the airfield has been obtained.
